Leverantörsportal

Företagsportalen är en tjänst som riktar sig till bolag som vill säkra sitt eget certifierings- och hållbarhetsarbete genom att bjuda in sina leverantörer till ansvarsfullt.se.

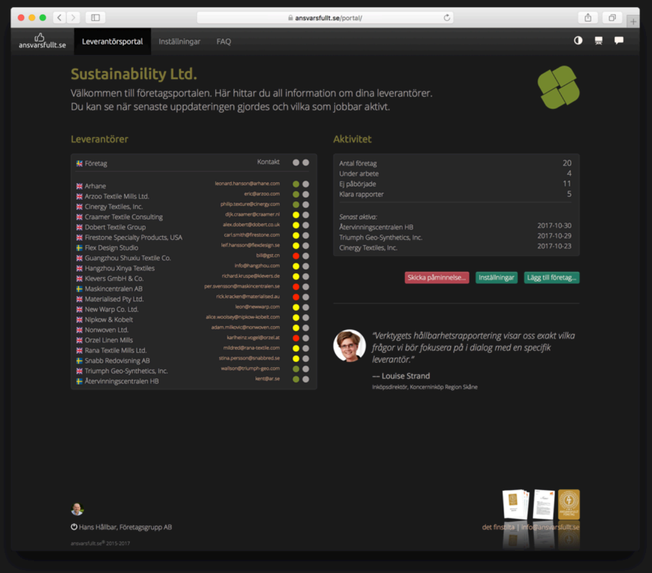

På ett överskådligt sätt ger det möjlighet att följa upp hur valda leverantörer i sitt eget arbete inom kvalitet, miljö och socialt ansvar stöder de åtaganden som det egna bolaget gör visavi kunder och omvärld.

Kontakta oss gärna på portal@ansvarsfullt.se så berättar vi mer.

Last name

Your email adress

I accept the license agreement and that I will be invoiced for a yearly license to use ansvarsfullt.se at a cost of US$399

Order license

Welcome to the supplier registration

As a part of our effort to strive for sustainability we have chosen to ask you as one of our trusted suppliers to do the same. Through ansvarsfullt.se you will be able to go through the process of securing your company's efforts within the areas of quality, environment and CSR.

Please register and finish the work with the sustainability report.

Thank you for helping us secure sustainability throughout the value chain.

Hans Hållbar

Questions and answers

We eliminate the hassle. Its not always easy to work with change, but weve made it immensely more simple. Simply by reading and answering the questions you will develop your company and improve your knowledge. You will be proud of many of your answers and be inspired to be better within other areas.

Area

Do you have control of your profitability?

By a profitable company it is often meant to make a profit, i.e. that the profits are greater than the expenses. However, to judge the profitability it must be put into relation to something else, for example the investments done by the owners. This way profitability can be measured over time.

We try as well as we can. | We try to be cost-conscious. | We are cost-conscious... | Yes, we have a focus on profitability.

Omar Sharif, Materialised Pty Ltd.
